DETAILED ACTION

1. Applicant's amendment of November 15, 2004 is acknowledged. It is noted that the specification is acknowledged. Claim 1 is amended. Claim 5 is canceled.
2. This application is in condition for allowance except for the following formal matters:
The drawings must show every feature of the invention specified in the claims. Therefore, "the open end forming a crimpable lip with an uncrimped second inner diameter larger than the first inner diameter of the hollow chamber" in claim 1, lines 3-4, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

3. Claims 1-4 and 6-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. The following is a statement of reasons for the indication of allowable subject matter:
none of prior art teaches or suggest a compressible pin assembly comprising a hollow chamber of a barrel having a closed end, an open end, a crimpable lip at the open end with an uncrimped second inner diameter larger than the first inner diameter of the hollow chamber and, a contact pin having a contact end extending from the pin body through the lip of the open end of the barrel; an elastic element contained in the hollow chamber against the closed end of the barrel; and a stopper designed to be placed into and to seal the aperture.
